PANCAP Member Information Assessment in Relation to Test & Start SURVEY

BACKGROUND

The Pan Caribbean Partnership against HIV and AIDS (PANCAP) is an organizational model designed to harness the resources of governmental and non-governmental organizations and donors in order to achieve a synergistic and effective response to the AIDS epidemic in the region under the coordination of the Caribbean Community Secretariat (CARICOM).

The PANCAP Information Assessment regarding Test and Start aimed to understand the type of information used and needed among PANCAP members in order to improve the use of the new WHO HIV 'Test and Start' Guidelines.

RESPONDENT PROFILE

46 respondents

from **23** countries

participated in our

20-QUESTION SURVEY

63%
National AIDS
Program
Mgr/Other PM
