

DELIVERING HIV PREVENTION SERVICES DURING COVID-19

SOLUTIONS TO ENSURE PROTECTION

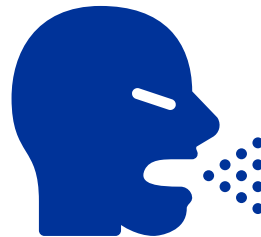

Who needs to be protected?
BOTH PROVIDER AND CLIENT

PROTECTION FROM WHAT?

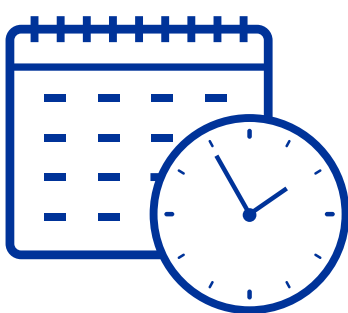

- **From the risk of droplet exposure**

- **From droplets on hard surfaces**

HOW TO ENSURE PROTECTION?

Make appointments

REDUCE NUMBER OF PERSONS AT FACILITY

Make appointments to reduce the number of persons at facility at one time.

Pre-screen Questionnaire

ASK ABOUT SYMPTOMS

Develop and use a pre-screen questionnaire - do you have a fever, cough or other respiratory symptoms, have you been in contact with anyone who tested positive for COVID-19 within the past 14 days, etc.?

Streamline clinic flow

LIMIT INTERACTION

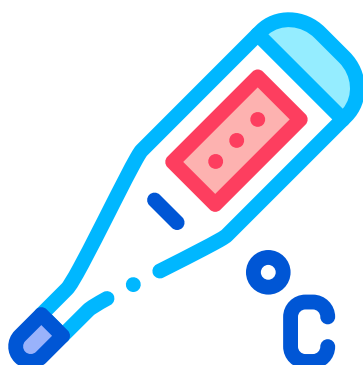

Streamline clinic flow so that clients do not have to interact with multiple providers.

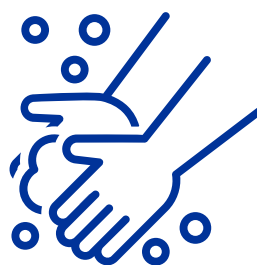

Precautions for entering facility

ON ENTRY INTO THE FACILITY:

- Check temperature

- Provide hand sanitizers and ensure that everyone uses or washes hands.

- Ensure that social distancing is practiced with seating arrangements.

- Allow persons to exit testing room with appropriate spacing to facilitate adequate time for cleaning.
